

M

Т

Really listened to what my child was saying

Told a joke, made a silly face, or did something to boost my child's mood

Involved my child in at least one decision

Made sure we each named 1 thing we're grateful for & 1 we're looking forward to

Hugged my child for no reason

Noticed my kid working hard on something & complimented them on it

Took a calming breath before talking when my child and/or I was upset

Did something to care for myself so I'm better able to care for my child
